1. Our position

Trading forex, CFDs and fixed-time (binary) options is risky and should not be treated as a way to make a living or to recover losses. Short-term options in particular can feel like a game. We want clients to trade only with money they can afford to lose.

2. Tools available to you

- Set your own deposit limit by writing to support@oraxbroker.com.
- Ask for a cooling-off period of 7 days to 6 months, during which you cannot deposit or trade.
- Ask us to close your account permanently.
- Use a demo account to practise without real money.

3. Warning signs

Consider stopping if you trade to chase losses, borrow money to trade, hide trading from family, or trade larger amounts than planned.

4. What we do

We do not offer accounts to anyone under 18. Our marketing must show the risks clearly and must not promise profits. If we see signs that a client may be harmed, we may contact them, limit deposits or suggest a break.

5. Getting help

If trading is affecting your finances or wellbeing, speak to someone you trust or a local support service for problem gambling or debt.
